

## INSURANCE DEDICATED TEAM

CRGP Limited has a reputable and dedicated team with the skills and commitment to ensure the entire reinstatement process is progressed swiftly and efficiently.

Our team is multi-disciplined and draws from the expertise of building surveyors, quantity surveyors, architects, project managers and CDM Co-ordinators.

The team leader maintains communications with the Loss Adjuster and the insured from the date of the loss until completion.

This single point of contact simplifies responsibility and contact with the loss adjuster and insured.

Above all, we have a proven track record in successfully completed projects of all sizes, nature and complexity.

## COMPLICATED CLAIMS

We have proven our expertise in recent years when we have dealt with several complicated claims. We have successfully concluded claims involving multiple owners/multiple insurers/multiple loss adjusters together with elements of under-insurance in all market sectors. We understand the processes involved, the importance of the different insurance policies that exist and the impact they have on the reinstatement route.
